Write a paragraph about:

Dream jobs

I'd like to be an airline pilot. This job needs a pilot's licence. It also needs a good knowledge of English. I like this job because I'm interested in planes and I want to travel. My role model is my cousin. He flies planes all over the world. He works for 30 hours per week. He has national holidays plus four weeks a year. My ambition is to fly to every capital city in the world.

The Tulsa Time Capsule

A crowd of people gathered outside the courthouse in Tulsa, Oklahoma, in June 1957, to witness the burial of an unusual time capsule: a brand-new gold-and-white Plymouth Belvedere car. The city leaders explained: "In exactly 50 years time, this car will be unearthed to show the world who we were and how we lived in Tulsa in 1957."

The automobile contained a flag, a city phone directory, an unpaid parking ticket, and the contents of a woman's purse: bobby pins, a ladies' powder compact, a plastic rain cap, several combs, a tube of lipstick, a pack of gum, a wad of tissues, \$2.73 in bills and coins. Five gallons of gas were also included, in case the combustion engine became obsolete by 2007 and no fuel was available.

Life in the future

I think that life in the future will be different. First of all new sources of energy will be discovered. People will build villages on the moon or on Mars. The means of transport will be more comfortable and faster. People will shop through computer. Doctors will cure serious diseases. There will be great developments in education. To sum up, I think that the future will be much happier.

The World of Plastic

Can you imagine a world without credit cards? Until the 1950s, a world without the use of cash was simply inconceivable. Today an economic universe without plastic would be impractical. Whether it's for business or for leisure, the credit card is used to pay for goods and services from New York to Beijing.

In 1984, the first card members rewards program was created, aimed mostly at business travelers. It gave valuable benefits and special privileges to loyal users. Now many reward

programs offer free airline miles and discounts on hotels and other products. Ever since a businessman forgot his cash in 1949, people have used credit cards. An entirely new business was created that revolutionized the way the world has paid for goods and services ever since.
