Read the following passage then answer the questions

The Benefits of Exercise

Getting regular exercise is good for you. Everyone knows that. But, then why doesn't everyone exercise? Some people say they don't have enough time because **they** are busy with work, school, and family obligations. However, making time for some exercise should be a priority for everyone. The following are just a few of the reasons why:

- 1) Exercising makes you feel good. When you have a bad day, or you feel stressed or angry about something, a little exercise can help you relax and improve your mood. Also, getting regular exercise can help prevent depression.
- 2) Physical exercise helps prevent some diseases such as high blood pressure, diabetes, and certain types of cancer. A walk a day can help keep you healthy!
- 3) Exercising helps you maintain a healthy weight and keeps you strong.
- 4) Exercising gives you more energy. You will feel less tired during the day if you are physically stronger and more active.
- 5) Exercising helps you sleep better. If you have been active during the day, you sleep better. And when you have slept better at night, you feel better during the day.
- 6) Find an activity that you enjoy. You don't have to go to the gym. You can go for a walk or a hike. Whenever you are active, you are doing something good for both your physical and mental health.

Read the following passage then answer the questions

Water is life and the lack of water means death. Any living thing cannot go on living without water. Plants need water to grow. Animals need water to drink. People need water to drink and to use in cleaning, cooking, farming and irrigating their lands. We can get water from rivers and lakes. But the main source of water is the rain. In the desert, people dig deep wells to get water. For keeping water from being wasted, people build dams for storing water in reservoirs that form behind the dams. Water is stored in water towers that supply all the houses with pure water. Our government has set up desalination plants for treating seawater and removing the salt. Thanks be to God, the Merciful, who has created water for us. We don't need to pay for it as it is neither sold nor bought.

1. Read the following passage then answer the questions.

A flavorist is a person who creates natural and artificial flavorings that go into our foods. Their work entails first identifying the individual chemicals found in the nature. Then they recreate the flavors using different chemical combinations. Such manufactured flavors often last longer, have a stronger flavor, and smell better than flavors found in the nature. According to Carol Militescu, a senior flavorist, there is not one way to create a flavor. Different chemical combinations can make the same flavor. How you put the chemicals together makes the difference.

Read the following passage then answer the questions below:

There is a famous expression in English: "Stop the world, I want to get off!" This expression refers to a feeling of panic, or stress, that makes a person want to stop whatever they are doing, try to relax, and become calm again. 'Stress' means pressure or tension. It is one of the most common causes of health problems in modern life. Too much stress results in physical, emotional, and mental health problems.

There are numerous physical effects of stress. Stress can affect the heart. It can increase the pulse rate, make the heart miss beats, and can cause high blood pressure. Stress can affect the respiratory system. It can lead to asthma. It can cause a person to breathe too fast, resulting in a loss of important carbon dioxide. Stress can affect the stomach. It can cause stomach aches and problems digesting food. These are only a few examples of the wide range of illnesses and symptoms resulting from stress.

Emotions are also easily affected by stress. People suffering from stress often feel anxious. They may have panic attacks. They may feel tired all the time. When people are under stress, they often overreact to little problems. For example, a normally gentle parent under a lot of stress at work may yell at a child for dropping a glass of juice. Stress can make people angry, moody, or nervous.

It is obvious that stress is a serious problem. It attacks the body. It affects emotions. Untreated, it may eventually result in mental illness. Stress has a great influence on the health and well-being of our bodies, our feelings, and our minds. So, reduce stress: stop the world and rest for a while.
