### Read the following passage and answer the questions below:

An elderly carpenter was ready to retire. He told his employer-contractor of his plans to leave the house-building business to live a more leisurely life with his wife and enjoy his extended family. He would miss the paycheck each week, but he wanted to retire. They could get by.

The contractor was sorry to see his good worker go & asked if he could build just one more house as a personal favor. The carpenter said yes, but over time it was easy to see that his heart was not in his work. He resorted to shoddy workmanship and used inferior materials. It was an unfortunate way to end a dedicated career. When the carpenter finished his work, his employer came to inspect the house.

Then he handed the front-door key to the carpenter and said, "This is your house... my gift to you." The carpenter was shocked!

What a shame! If he had only known he was building his own house, he would have done it all so differently.

So it is with us. We build our lives, a day at a time, often putting less than our best into the building. Then, with a shock, we realize we have to live in the house we have built. If we could do it over, we would do it much differently.

But, you cannot go back. You are the carpenter, and every day you hammer a nail, place a board, or erect a wall. Someone once said, "Life is a do-it-yourself project." Your attitude, and the choices you make today, help build the "house" you will live in tomorrow. Therefore, Build wisely!

### A-Answer these question:

1 -What was carpenter plan?

2 -What did he want?

3-Did his employer come to inspect his house?

### Regrets

My name's Jack and I want to tell you about something I regret. It happened over twenty years ago. I must have been around five years old. It was a summer day and I was in a park playing with some other kids from the neighborhood. There was a boy **there** named Jeremy who I didn't like very much, but I can't remember why. **Read the following passage then answer the questions**

An elderly carpenter was ready to retire. He told his employer-contractor of his plans to leave the house-building business to live a more leisurely life with his wife and enjoy his extended family. He would miss the paycheck each week, but he wanted to retire. They could get by.

The contractor was sorry to see his good worker go & asked if he could build just one more house as a personal favor. The carpenter said yes, but over time it was easy to see that his heart was not in his work. He resorted to shoddy workmanship and used inferior materials. It was an unfortunate way to end a dedicated career.

When the carpenter finished his work, his employer came to inspect the house. Then he handed the front-door key to the carpenter and said, "This is your house... my gift to you." The carpenter was shocked!

What a shame! If he had only known he was building his own house, he would have done it all so differently.

So, it is with us. We build our lives, a day at a time, often putting less than our best into the building. Then, with a shock, we realize we have to live in the house we have built. If we could do it over, we would do it much differently.

But, you cannot go back. You are the carpenter, and every day you hammer a nail, place a board, or erect a wall. Someone once said, "Life is a do-it-yourself project." Your attitude, and the choices you make today help build the "house" you will live in tomorrow. Therefore, Build wisely!

**The Bermuda Triangle**

The Bermuda Triangle is an area of water in the North Atlantic Ocean that stretches from the island of Bermuda to Florida to Puerto Rico. Since the 1940s, a large number of planes and boats have mysteriously disappeared in this area. In many cases, these planes and boats were traveling in good weather conditions without any known problems, when they suddenly disappeared and were never seen or heard from again. Over the years many people have tried to explain the strange disappearances. Some say that there must have been sudden storms or bad weather. Others say that gases in the water might have caused boats to sink. Some people even say that aliens are responsible. Scientists have been unable to agree on why so many boats and planes have disappeared in this area. But, one thing is for sure—until an explanation is found, people will continue to wonder what mysterious things are happening in the Bermuda Triangle.

**B -Reading Comprehension**

**.Read the following passage and answer the questions:**

Marcia says that all of her friends have a cell phone, but Marcia's mom doesn't want to buy her one. Marcia's mom doesn't want Marcia to play video games either. What is more, the Internet scares her. Marcia's mom says, "If Marcia has a cell phone, how do we know whom she is talking to? Video games are bad for you. The Internet is dangerous and uncontrolled. It's like having a gun in the house. We should just ban her from using the computer, and I'm not buying her a cell phone until she is eighteen. This is the only way we can be sure that Marcia is safe." Marcia's dad disagrees with Marcia's mom. Although he agrees that there are some dangers to it, he likes the Internet, and finds it to be very useful. "The trouble is," he says, "We just can't stop Marcia from using the Internet, as this would put her at a disadvantage. What is more, I like video games. **Read the following passage and answer the questions below:**

Summer is all about great weather, good company and great food. There is nothing quite like enjoying a good meal with a cold drink, listening to music with friends and feeling the grass in between your toes while you soak up some sun. Bank holidays in the United Kingdom generally fall on a Monday, which means that everyone gets to enjoy a three-day relaxing weekend. In the summer, if the weather is warm and the sun is shining, friends and family gather and have what the British and Australians call a "Barbie", a short form of the word barbeque, in their backyard, park or on the beach. Children get the chance to run around and play while the adults cook the food, drink and have a fun time. There is no doubt that meat and chicken that is cooked on a grill with charcoal outside, tastes much better than meat that is cooked in a traditional cooker or oven. The aroma itself is mouth-watering and is much healthier too. On the menu you will find grilled steak, chicken legs, chops, hamburgers and bangers. A seasonal salad, potato salads, corn and coleslaw are the nations favourite side dishes that go well with a barbeque.
